Installing TurningPoint AnyWhere

1. Download TurningPoint AnyWhere from http://www.turningtechnologies.com/downloads.
2. Click **TurningPoint AnyWhere for Mac**.
3. Complete form.
4. **"Click here to download TurningPoint AnyWhere for Mac"**.
5. Run the **TurningPoint Anywhere for Mac Disk Image file (dmg)**.
6. Click and drag the **TurningPoint AnyWhere** logo to the folder on the right.
7. Eject the **Disk Image File**.

Version 2.1
Revised: 10/19/09

Touring the TurningPoint AnyWhere Showbar
When you launch TurningPoint AnyWhere, the program opens and the TurningPoint AnyWhere showbar is displayed in the upper right corner of the screen.

Open Polling
Opens polling allowing participants to responding to questions.

Close Polling
Closes polling and prevents participants from responding to questions.

Display Results Window
Displays or hides the polling results window.

Action Button
Allows the user to display or hide the polling results window, Connection Info window, Question Info window, and the Presentation Window.

Display Presentation Window
Displays the User Feedback counter. The text of the Feedback counter is green when polling is open and white when polling is closed.

Response Device Configuration

Radio Frequency and Infrared ResponseCards
1. Plug in the **RF/IR Receiver**.
2. Click **TurningPoint AnyWhere** then **Preferences** from the main toolbar.
3. Mouse over **Objects** and select **Response Devices.**
4. For RF receivers, select the Radio Frequency channel number from the drop-down menu in the right panel next to the receiver device number for Radio Frequency ResponseCards. (For IR receivers, verify that the receiver serial number is listed).
5. Close the Preferences window.

ResponseWare
1. Click **Window** then **ResponseWare** from the main toolbar
2. Enter the **Username** and **Password.**
• Placing a check mark in the box next to **Remember this information** will save the account information.
• Optionally, enter the **Event Code** if you are using ResponseWare as a rental account or have a static session ID account. Refer to the purchase terms of your ResponseWare license.

Polling

1. Click the **Start Polling** button on the showbar.
   TIP: You can specify a keyboard shortcut to start polling in the TurningPoint AnyWhere preferences.
• Start Polling button now becomes the Stop Polling button.
• Clicking the **Chart button** on the TurningPoint AnyWhere showbar brings up a dynamic chart that will adjust to the responses being received. The chart will remain on screen until you click the Chart button again.

2. TurningPoint AnyWhere will now receive responses from the participants.
3. Click the **Stop Polling** button to close the poll and display the results of the participants.
   TIP: You can turn off the charts so they are not displayed automatically when polling closes. This option can be found in the TurningPoint AnyWhere preferences.

Saving the Results

1. Click **File** then **Save Session As** ... from the main toolbar.
2. Name the session file and click **Save**.
